Land Surveyor

First Capital Engineering is a civil engineering firm located in historic York County, Pennsylvania. The firm provides civil engineering, surveying, site planning, landscape architecture and consulting engineering services to private and public sector clients. This is a direct, full time opportunity that offers competitive pay and excellent benefits.

Minimum Qualifications/Experience:

- ★ Bachelor's Degree in Surveying or related field
- ★ Self-starter who can work independently and with team members
- ★ Effective Writing and Communication Skills
- ★ Knowledge of AutoCAD
- ★ Proven ability to prioritize the work of others in order to meet deadlines
- ★ Provide high quality service to clients

Job Responsibilities:

- ★ Prepare Surveys for field work
- ★ Process field work
- ★ Review and monitor field surveys
- ★ Prepare and Review CAD work, plots, and final surveys
- ★ Coordinate and assist in scheduling and preparing cost estimates under the supervision of the project surveyors
- ★ Assist in preparation of ALTA surveys including title review, preparation of meets and bounds descriptions and final quality control review
- ★ Project communication and coordination
